13. Our preschool seeks to meet the needs of all children who attend our school, and as a general policy, each student will be evaluated, on an individual basis, to determine if Temple Beth Shalom is the right fit for your child. In the case of a child with special needs, consultation with the parents, other relevant professionals, and the Director must take place prior to class placement. Any reasonable modifications to our policies and practices to accommodate a child with special needs will be considered, as long as no fundamental alteration to our existing program or an existing cost to the program will incur. As with any matriculating student, all evaluations are determined on an individual basis, with our primary goal of meeting the needs of each student being paramount. We also have the right to unenroll any child if we cannot accommodate the needs of a child.
